

A Word of Art

Feminist artist, Heather Mendel specializes in designing ketubot and other types of inspirational calligraphic design. Her unique 'word-paintings' are of a spiritual nature and include vows appropriate for interfaith weddings and commitment ceremonies. Designing texts with a variety of English and Hebrew scripts, she will create a 'Word of Art' specifically for you - or for that special couple in your life.

**Sea Mist
Reflections Series**

Texts can be traditional or egalitarian and Heather offers some texts of her own. The borders and backgrounds are painted and illuminated to reflect the colors, passions and unique personalities of each individual couple. Signed during the wedding ceremony and witnessed by the rabbi and those chosen by the bridal couple, a ketuba, painted and illuminated, becomes a 'Word of Art'. Its inspirational beauty delights not only the eye, but touches the spirit and reminds us of the highest aspirations in sacred relationship to which bridal partners commit themselves. Many people celebrate significant anniversaries by commissioning a 'Word of Art' ketuba as they rededicated themselves one to the other through the years.
